

£4 Million Research Initiative

8 POSTS IN SKELETAL BIOLOGY AND DEGENERATIVE DISEASE

Resetting the THYRoid axis for prevention of AGE-related diseases and co-morbidities

**Imperial College
London**

Duncan Bassett
Graham Williams
*Molecular Endocrinology Laboratory
Department of Medicine*

- 2 Research Technician posts for up to 5 years
[Research Technician 1](#) [Research Technician 2](#)

Control of macrophage multi-nucleation in health and disease

**Imperial College
London**

Jacques Behmoaras
*Centre for Complement and
Inflammation Research*
Duncan Bassett & Graham Williams
Molecular Endocrinology Laboratory

- Post-doctoral Research Associate for up to 4 years
[Research Associate](#)
- Research Technician for up to 4 years
[Research Technician](#)

Cellular thyroid hormone availability: regulation of development and tissue repair, and pathogenesis of degenerative disease

wellcometrust
Investigators

**Imperial College
London**
